

# Procedures for **INSTALLATION** under Covid-19

Nothing is more important, to us, than the health and wellbeing of our staff and customers. We've put some protocols in place to ensure everyone stays safe during Covid-19.

## Clear Space

Clear ornaments, furniture and any other objects, that could spread the virus, away from the areas of work.

*This will stop any spread to our workers and you.*

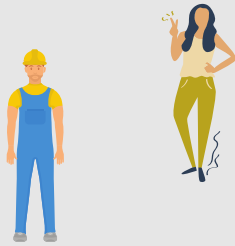

## Extra clean windows

Once installed we will wipe all windows and handles down with anti-bacterial cleaner.

## Keep 2m distance

When they arrive, our fitters will knock and stand away from the door. Please advise them on what room to start first.

## Hold the cash

We will only be accepting card payments to limit the spread of the disease.

## We'll bring the tea

Our fitters love a cuppa, however they will bring their own beverages. Please don't be offended if they say no to a brew.

## Give us a call

If you have any concerns or special requirements, feel free to call us before, during or after your installation.

01902 305 277

## PPE as standard

Our fitters will be provided masks and gloves to limit the risk of air-borne and surface contact.
